## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/23/2005 has been entered.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of a multipoint auto-focus system having a plurality of light receiving means and a plurality of monitor means. Furthermore, the prior art teaches the use of a integration control circuit and a correction circuit to correct the integration value of the light receiving means whose integration operation has been stopped by the integration control mean. However, the prior art does not teach or suggest correcting a difference in integration characteristic among the plurality of monitor means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
